ANNEXURE-A TO TCN-07

JOB:Erection, Testing and Commissioning of Air Cooled Condenser (ACC) with Associated Auxiliary System etc. for unit # 1, 2 & 3 of 3x660 MW North Karanpura STPP, Jharkhand.

TENDER NO - PSER:SCT:NKP-M1883:18.

CLARIFICATION

Sl. No	Reference clause of tender document	Existing Provision	Bidder's Query	BHEL's Clarification
1	TCN: 06, Sl. No. 1 & TCN: 04, Major Tools & Plants to be deployed by the contractor.....	<p>TCN 06: BHEL's Clarification: We may consider for deployment of Flat Jib (Tower Crane) of any suitable capacity, ranging from 20 Ton to 25 Ton fro execution.....However...required qty. will be samePurpose of using 600 T & 25 T Tower crane is different...</p> <p align="center">&</p> <p>TCN 04: 25 T Flat Jib Crane (Tower Crane) : Range of 70 m height of 74 m. : 02 Nos with in 45 days.</p>	<p>We understand from the erection manual that both the cranes are not required within 45 days. Phase gap between two units is 3 months. Bidder should be allowed to mobilize second crane in consultaion with BHEL site only when sufficient fronts & material is availabe for second unit. Further, Tower crane shall be released when it's purpose is complete i.e. mechanical erection of those items which can be erected by using only Tower crane & the same shall be in consultation with BHEL site. Further, we also request BHEL to have some provison to compensate the erecton vendor in case the requirement of Tower Crane goes beyond the contractual period due to reasons not attributable to contractor as in such case over run compensation would not be sufficient to meet out even the rental charges of this crane let alone establishment cost in overstay period. Kindly consider.</p>	<p>Towards considering the request of bidder, the deployment schedule of Flat Job (Tower Crane) is being modified as per following:</p> <p>a) First Tower crane shall be mobilized at site within 20 to 30 days.</p> <p>b) Second Tower crane shall be mobilized at site within 45 days or as per written instruction of Construction Manager, BHEL-NKP site, whichever is later.</p> <p>All other Tender Terms and Conditions shall remain unchanged.</p>

ANNEXURE-A TO TCN-07

JOB:Erection, Testing and Commissioning of Air Cooled Condenser (ACC) with Associated Auxiliary System etc. for unit # 1, 2 & 3 of 3x660 MW North Karanpura STPP, Jharkhand.

TENDER NO - PSER:SCT:NKP-M1883:18.

CLARIFICATION

Sl. No	Reference clause of tender document	Existing Provision	Bidder's Query	BHEL's Clarification
2	TCN: 06, Point No. 7,	Successful completion of PG Test for each of the unit # 1, 2 & 3 will be considered as final readiness of the respective unit as regard applicability of Guarantee clause vide TCC cl. No. 52.2 of Vol-IF	We have witnessed several cases where it took years to perform PG test even after successful commissioning & handover of unit. Correlating commencement of Guarantee period with PG Test does not seem justified. It should be linked with successful Trial run of the unit. Kindly consider.	Responsibility of any executing agency gets completed only after completion of PG test.
3	TCC Clause No. 46.3, Page 42 of 59	The actual date of start of work of each unit will be certified by BHEL site in charge/CM after adequate mobilization of manpower, T & P by contractor. This certificate date will be deemed as start of work of respective units at site for purpose of the contract time schedule.	We understand from the existing clause that even if all three units are a part of single contract and single LOI shall be issued, however, all three units will have separate start date, separate completion date. Further, Over run compensation & PVC shall also be calculated unit wise. ORC Limit of Rs. 1 lac to 5 Lacs per month due to rate revision shall be applicable unit wise and the for the whole contract as a whole. Kindly confirm.	As per Tender.
